Table 3

Distribution of scores on the Coordinated Community Helping during the COVID-19 Pandemic Scale (percentage of total participants selecting each item response option in parenthesis)

	Not at all	To a small extent	To a moderate extent	To a great extent	To a very great extent	Mean Score (SD)
<i>I have participated in one or more groups that were created in order to support members of my local community</i>	106 (51.7)	42 (20.5)	35 (17.1)	16 (7.8)	6 (2.9)	1.90 (1.12)
<i>I have worked together with neighbours I already knew</i>	81 (39.5)	54 (26.3)	44 (21.5)	20 (9.8)	6 (2.9)	2.10 (1.12)
<i>I have worked with previously unknown neighbours</i>	126 (61.5)	41 (20)	17 (8.3)	15 (7.3)	6 (2.9)	1.70 (1.08)
<i>I have participated in helping members of vulnerable groups at risk of Coronavirus within my community</i>	104 (50.7)	42 (20.5)	34 (16.6)	15 (7.3)	10 (4.9)	1.95 (1.19)
<i>I have participated in helping people infected by Coronavirus within my community</i>	154 (75.1)	22 (10.7)	16 (7.8)	8 (3.9)	5 (2.4)	1.48 (.97)
<i>I have organised or led a group/team/organisation intended to support members of my local community</i>	178 (86.8)	13 (6.3)	9 (4.4)	3 (1.5)	2 (1)	1.23 (.60)

Note: N=205 participants.

Table 4

Adapted Scale Items: Giving of coordinated community help during the COVID-19 pandemic

Item 1	I have participated in one or more groups that were created in order to support members of my local community
Item 2	I have worked together with neighbours I already knew
Item 3	I have worked with previously unknown neighbours
Item 4	I have participated in helping members of vulnerable groups at risk of coronavirus within my community
Item 5	I have participated in helping people infected by coronavirus within my community
Item 6	I have organised or led a group/team/organisation intended to support members of my local community

Table 5

Adapted Scale Items: Sense of unity during the COVID-19 pandemic

Item 1	Since the start of the coronavirus pandemic, people have united and prior disagreements and differences among people disappeared
Item 2	Since the start of the coronavirus pandemic, I have felt rejected and neglected by other people (<i>reverse scored</i>)
Item 3	Since the start of the coronavirus pandemic, people have been selfish and have cared only for themselves (<i>reverse scored</i>)
Item 4	Since the start of the coronavirus pandemic, I have felt as part of a united community of people who experienced a shared misfortune
